

The Basics of Wagering

Here are some key racing terms to use when placing a wager:

WIN

You bet on a horse to finish first.

PLACE

You bet on a horse to finish first OR second.

SHOW

You bet on a horse to finish first, second OR third.

ACROSS THE BOARD

You're betting win, place AND show. If your horse wins, you collect on the win, place AND show bets. If your horse comes in 2nd, you collect on the place AND show bets. If 3rd, you collect only on the show bet.

DOUBLE

Bet the winners of two consecutive designated races.

QUINELLA

Bet the horses that come in first and second in a race in any order.

PERFECTA

Bet the horses that come in first and second in a race in exact order.

TRIFECTA

Bet the first three finishers of a race in exact order.

SUPERFECTA

Bet the first four finishers of a race in exact order.

PICK THREE

Bet the winners of three consecutive designated races.

BOX

If you have two or more horses that you think will finish in the top spots, but you're not sure of the order, you can box them.

Example: EXACTA BOX on horses #3 and #4. You win if #3 wins and #4 wins and #3 places.

How to Place a Wager

Follow these five easy steps at the mutuel window:

FIRST

State the name of the track.

SECOND

State the race number.

THIRD

State the amount of your bet.

FOURTH

State the type of bet (see the first column of this brochure for bet types).

FIFTH

State the number of the horse(s) upon which you wish to place your bet.

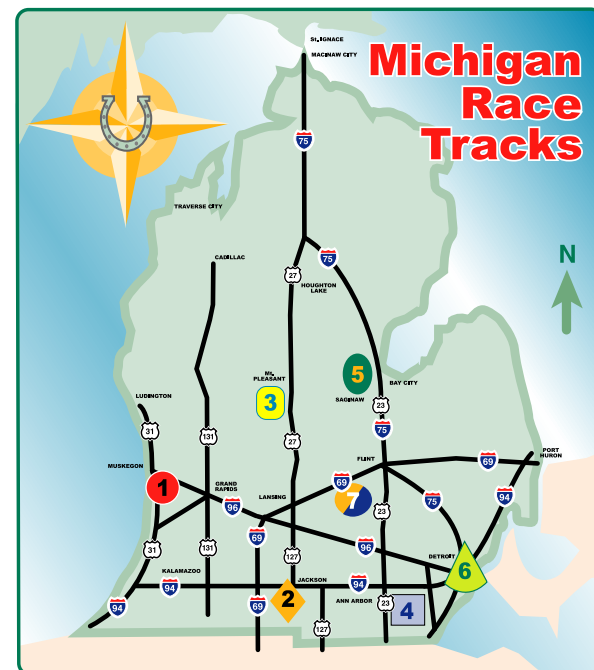

For example:

If you were at Hazel Park Harness Raceway and you wanted to bet two dollars on the number 4 horse to come in first in the sixth race, you'd say:

"Hazel Park, race six, \$2 to WIN on #4"

If you have any questions, just ask. Every track has people on staff who are there to help make your racing experience an easy and enjoyable one.
